

Line 11 of claim 1 has been amended to provide an antecedent basis for "said mixture". Claim 1 has also been amended to particularly point out that 70-40 % by volume of the mixture remains as residue "when said mixture is boiled at 300°C".

Claim 8 has been amended to define the bituminous pavement rejuvenator. Claim 8 has also been amended to clarify that the resultant product is a "composition".

It is submitted that the amendments to claims 1 and 8 overcome the indefiniteness rejections and all of the claims are allowable.

Reconsideration of the rejection and allowance of claims 1-12 are respectfully requested.

Respectfully submitted,
